Summary

I'm in my last year of the bachelor Digital Arts and Entertainment (DAE), looking for an end-of-study internship. I try to be a jack of all trades and I'm always interested in the inner workings of things. It would be great to combine this and develop tools or work on improving pipelines.

Experience

International Intern

Source Tech

Mar 2019 - Apr 2019 (3 weeks)

- 3D printing
- Android on custom hardware
- Preparing and installing multiple OS's
- A variety of smaller tasks

Tool development

AIM Productions

Feb 2019 - Mar 2019 (2 weeks)

- Implemented google cloud integration
- Jira data parsing
