Received my BK-0410-2 for formal music education Belgium

PERSONAL HIGHLIGHTS

- Takes pride in clean code architecture
- Genuinely enjoys tight collaboration with end-users and seeing work find real use
- Naturally curious about how things work under the hood

Bachelor – Digital Arts and Entertainment, Game

Development – Summa cum laude

AIM Productions High school internship 2019

- Tools intern

Source tech ltd. High school internship 2019

- International internship

NOTABLE EXPERIENCE

I became the sole maintainer of all audio tech at IOI immediately after university. Despite being junior, I increased stability and quickly earned the confidence of my colleagues. This led to a very strong rapport with the sound design team and fast-tracked my growth into architectural-level decision-making.
